1.15 Uniformly Distributed Load

Weights		
Total weight of crane	458	t
Maximum load	144	t
Total weight on operation	602	t
Number of axle sets	20	
Dimensions		
Support base	10,5 m x 15,8	m
Size of supporting pads	8,0 m x 2,0	m
Supporting area of pads	16,00	m²
Overall length of undercarriage	20,7	m
Overall width without supporting pads	6,5	m
Overall width with supporting pads and swung in outriggers	10,4	m
Overall width in traveling position and deployed outriggers	14	m
Covered Area		
In travelling mode	215	m²
In operation	273	m²

Area covered by the Crane in Operation Mode

All dimensions in m

UDL in Travelling Mode	**= 2,13 t / m²**
UDL during Operation	**= 2,2 t / m²**
